PRESS RELEASE

Lyon, 3/03/2009

CARL SOFTWARE, CMMS PUBLISHER, IS EXHIBITING AT THE INTERALPIN'09

Innsbruck - April 22 nd – 24 th 2009 - Stand 507 - Hall 5

CARL Software, Publisher specialized in maintenance management and asset management will be present at the InterAlpin 09 trade fair - stand 507.

CARL Software European leader in maintenance management and asset management solutions is strengthening its presence in the international market, the French publisher opened several offices worldwide in Turin, Stuttgart, Barcelona, Atlanta, Montreal etc. Because of its proximity to the Italian and Austrian ski areas this is the Italian agency of Turin that will exhibit at the INTERALPIN Trade Fair.

At this occasion we will introduce the following software:

- **CARL Source Transport** dedicated to passenger transportation, rolling stock and fixed transport facilities management
- **CARL Source Facility** to maintain buildings, offices, infrastructures open to the public and associated facilities
- **CARL Source Factory** to manage the maintenance of production equipment, special or technical equipment, handling equipment etc.

CARL Source Transport **ski lifts dedicated version**, ensures:

- The safety and satisfaction of users in compliance with ISO standards
- The availability and reliability of the equipment
- The compliance with maintenance regulations, automatic triggering of scheduled works
- Team planning and daily, weekly, multi-annual, seasonal checks
- The management of subcontractors
- The management of spare parts and supplies inventory
- The optimization of maintenance costs, inventory etc
